Textiles Pvt Ltd

**Mr.A.C.ESWARAN**

*Chairman - Viking Group*

It is our pleasure to introduce ourselves that we are one of a leading Manufacturer of yarn, knit fabrics and knitwear garments of both inner and outerwears. We have started our concern in the year 1960 in a small way and grown both vertically and horizontally. Now we have all facilities under one roof by using vertical backward integration style. Presently we buy only raw-cotton and send out yarn, grey & white, dyed knitted fabrics and finished garments to the market both in India as well as International market.

*Now We Are Proud To Have All Facilities Under One Roof  
Giving Quality Products At The Delivery Schedule.*

*We Are Proud To Say  
That 5000 Employees Working In Our Group.*

## SPINNING

Spinning division is located at Kangayam & Avinashi in Tirupur district, Tamilnadu, India. Our major specializations are 100% cotton combed compact knitting yarn & weaving yarn up to 60/1 count. All the spinning machineries are equipped with latest technology. We select supreme quality cotton fibres as per uesterized norms. The raw material is tested thoroughly before fibre to yarn conversion with our In-house state of art laboratory.

## KNITTING

Knitting division is located at Tirupur, Tamilnadu, India. We are producing Grey Single Jersey, Rib, Interlock, Thick Pique and loop knit fabrics in various diameter ranging from 14" up to 42". with **Mayer & Cie.**, **UNITEX**, Kay knit machines. The knitting unit has the capability to produce 10000 Kgs of Fabric per day.

## GREY FABRICS

We are using a STARFISH UK based Software for fabric manufacturing to maintain the fabric quality consistency regularly. We can knit the fabrics with 100% cotton, blended & elasthane blend with storage positive feeder mechanism. We inspect each and every fabric rolls immediately after knitting to maintain the quality.

## PROCESSED FABRICS

We can also supply Bleached white fabrics and Dyed fabrics with customized special finishings. Special finishings like Biowash, enzyme wash, silicon wash and elastomeric finish etc also can be finished as per buyer's requirements.

## GARMENT DIVISION

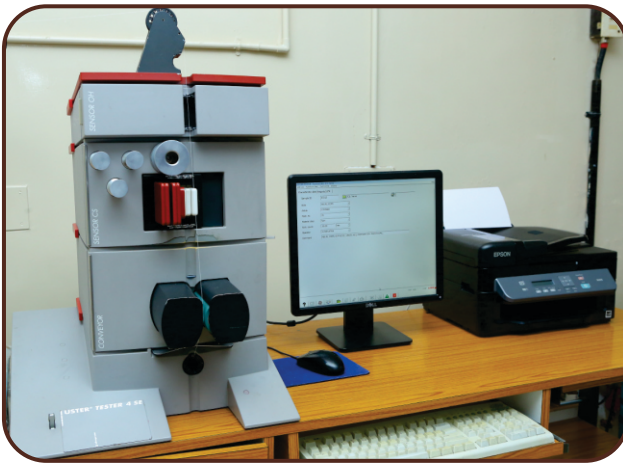

Our garment factory is equipped with latest imported Cutting and sewing machines. We are manufacturing specially Inners, Babies, Women's & Men's wears with updated fashion trends. Also we are adopting lean manufacturing techniques as suitable with ethical compliance.
